

7TH ANNUAL CONFERENCE

**COLLABORATIVE
CARE** THE FUTURE OF
ADHD

The Westin Brisbane **26-28 July 2024**

CONFERENCE PROGRAM

COLLABORATIVE CARE THE FUTURE OF **ADHD**

Welcome to AADPA's 7th Annual Conference

We're thrilled to welcome you to our 7th Annual ADHD Conference, "Collaborative Care: The Future of ADHD," at The Westin Brisbane. This year's workshop and conference program offers the opportunity to hear the latest in ADHD research, education, and treatment options from some of the most influential academics and clinicians working in the field of ADHD today as well as network with a diverse group of like-minded healthcare professionals.

At AADPA, our mission is to enhance life-time outcomes for individuals living with ADHD. We pride ourselves on ensuring diversity of voices, knowledge, and lived experiences within our association to effectively inform our projects and priorities.

As a trusted advisor to numerous professional bodies in Australia and globally, we will continue to provide an authoritative, evidence-based perspective to influence and shapes policy initiatives focused on accessibility, equity, and practicality for consumers.

Developed by AADPA, the Australian Evidence-Based Clinical Guideline for ADHD has quickly become the world's foremost resource for the assessment, diagnosis, and treatment of ADHD.

As Australasia's largest interdisciplinary association dedicated to ADHD, our membership includes national and international leaders across psychiatry, pediatrics, psychology, general practice, pharmacology, academia, coaching, and allied healthcare professions. This diverse network empowers us to impact every aspect of the neurodiversity community.

Thanks to our conference partners

COLLABORATIVE CARE THE FUTURE OF **ADHD**

Keynote Speakers

Prof. Emily Simonoff

Bridging the gap: triumphs and trials in ADHD care in underprivileged communities.

Emily Simonoff is a Professor of Child and Adolescent Psychiatry at the Institute of Psychiatry, Psychology and Neuroscience, King's College London, where she is also head of the Department and Director of the King's Maudsley Partnership for Children and Young People. She is a UK National Institute of Health Research Senior Investigator and academic lead for the Child and Adolescent Mental Health Services Clinical Academic Group at the South London and Maudsley Foundation Trust.

A/Prof. Renata Schoeman

Bridging the gap: triumphs and trials in ADHD care in underprivileged communities.

Renata Schoeman (MBChB, MSocSc, MMed, FC Psych, PhD, MBA) is Assoc. Professor: Leadership and Head of the Healthcare Leadership MBA specialization stream at the University of Stellenbosch Business School, Cape Town, and a virtual faculty member of the University of Stellenbosch Business School Executive Development Program. Co-founder and Director of [Goldilocks And The Bear](#), Renata has been in full-time private practice as a general Psychiatrist for more than 15 years with special interests in disorders affecting attention, concentration, learning and memory, such as ADHD.

Prof. Ian Wong

Application of healthcare big data in the evaluation of ADHD medications and real-life health outcomes

Head of the Department of Pharmacology and Pharmacy at the University of Hong Kong. Prof. Wong holds the Lo Shiu Kwan Kan Ling Endowed Professorship in Pharmacy and was a top 1% scholar in pharmacology and pharmacy research from 2015 to 2023. He has led many research programs on ADHD in the UK, Europe, and Hong Kong and was a member of the National Institute for Health and Care Excellence (NICE) guideline development group on ADHD. He has over 600 publications in prominent journals, including JAMA Network Journals, The Lancet family journals, and BMJ Journals

Special Guest Speakers

Special address from the Queensland Minister for Health and Mental Health

Matilda Boseley

ADultHooD: The ADHD Community is Changing

Dr Yolandie Goodyear

Left of Centre: The Overlap Between Neurodivergence & Gender Diversity

Cecilia Fang

From Diagnosis to Diversity: Navigating ADHD in the Tech Industry. A Chinese/Kiwi perspective

Suzanne Cookson

ADHD in New Zealand: The Force Awakens

Darrin Bull

ADHD in New Zealand: The Force Awakens

A/Prof. Tim Silk

ADHD and Puberty: What We Know and What We Don't

A/Prof. Shuichi Suetani

A Model Of Care For ADHD Among Adults

Prof. Sarah Medland

Are We There yet? What genetics can tell us about ADHD

Dr Sophie Stocker

Pharmacogenomics: A tool to personalize ADHD treatment.

COLLABORATIVE CARE THE FUTURE OF ADHD

FRIDAY, 26 JULY 2024

Conference Program

8:00 Registration, Tea and Coffee	
9:30 – 12:00 Concurrent Morning Workshops	
Prescriber Manual: Mastering ADHD Medication Prescriptions Venue: Ballroom 1 Break & Morning Tea: 10:30 – 10:45 Led by Kate Tognarini and Prof. Dave Coghill, this comprehensive half-day workshop, tailored for pharmacists and professionals involved in prescribing ADHD medications, will cover the latest updates, best practices, and ethical considerations in ADHD medication management from the ADHD Prescribing Manual.	From Scattered to Shining: Insights into ADHD Coaching Venue: Ballroom 2 Break & Morning Tea: 10:30 – 10:45 Coaches are collaborative by virtue of their training and form a valuable part of any treatment team, often liaising and advocating with schools and workplaces. Led by Dr Michele Toner, OAM, This workshop will provide an overview of the ADHD coaching process, and how it differs from therapy and other allied health practices. Case studies will be included and specific coaching niches will also be highlighted.
1:00 – 3:30 Concurrent Afternoon Workshops	
Psychologist's Roles and ADHD Management Venue: Ballroom 2 Break & Morning Tea: 2:00 – 2:15 Psychologists can have diverse roles in ADHD management. This workshop will explore the distinctions between various titles, providing clarity on their abilities to diagnose, treat, and manage ADHD under current guidelines.	Practically Speaking: GP Training Venue: Ballroom 2 Break & Morning Tea: 2:00 – 2:15 This workshop is specifically curated for healthcare professionals seeking comprehensive education on ADHD. The latest resources, evidence-based practices, and practical tools to enhance your ability to diagnose, treat, and manage ADHD in a healthcare setting.

COLLABORATIVE CARE THE FUTURE OF **ADHD**

Takeda is a global, values-based, R&D-driven biopharmaceutical leader headquartered in Japan, committed to discover and deliver life-transforming treatments, guided by our commitment to patients, our people and the planet. Takeda focuses its R&D efforts on four therapeutic areas: Oncology, Rare Genetics and Hematology, Neuroscience, and Gastroenterology (GI), with expertise in immune and inflammatory diseases. We also make targeted R&D investments in Plasma-Derived Therapies and Vaccines. We are focusing on developing highly innovative medicines that contribute to making a difference in people's lives by advancing the frontier of new treatment options and leveraging our enhanced collaborative R&D engine and capabilities to create a robust, modality-diverse pipeline. Our employees are committed to improving quality of life for patients and to working with our partners in health care in approximately 80 countries and regions.

For more information, please visit takeda.com

Novartis is improving the lives of more than 2.5 million patients across Australia and New Zealand through our medicines. By partnering with the healthcare system we are working for patients to address their needs, and we are committed to accelerating patient access to life saving treatments and associated healthcare. We are reimagining medicine by using innovative science and technology to address challenging healthcare issues and our rich research pipeline has 50+ ongoing Phase III programs. Every day our inspired, curious, unbossed, and integrity-driven culture unites our people and encourages leadership at every level.

creating connected wellbeing

Oqea was created by a group of senior mental health professionals who saw the need for change. In realising things could be done a better way, we were inspired to use technology to enhance the wellbeing of people all over the world. We believe high quality support should not be limited by the complexity of the current health system and it should be available to everyone, everywhere.

For more information, please visit oqea.com

At **EmmeCO**, we provide comprehensive, high-quality practice management services for specialists and psychologists. Our expert team offers exceptional virtual support, ensuring a personalised and affordable experience. Additionally, as an ADHD Specialist Practice, we employ a multi-disciplinary approach to diagnose and treat ADHD and Autism, earning the trust of GPs, psychologists, and specialists across Australia.
